

Vandalism to new signage

To All,

Please see below a photo taken yesterday of a sign installed along the new fence bordering Long Meadow. This sign was installed less than 2 weeks ago and as you can see needs replacing already. The signs are put up to warn people of the hazards associated with construction sites. There has also been a further incident regarding the Emergency Life Rings around the lake. A post holding the life ring has been broken and the ring thrown into the water.

Can we ask that residents communicate this to all concerned, RJM thank you in advance for your help in trying to prevent any further incidents of this nature.
